SHIPS WITHIN 3 WEEKS

STEREOVISION

LAYERED AESTHETICS —

Construct a visual masterpiece with Stereovision. Two new patterns, Light Wave and Mainframe, bring this artistic concept to life. An abstract interpretation of stereoscopic art, this collection fuses modern design motifs with playful surrealism.

MAINFRAME

Explore a new dimension of visual interest and movement with Mainframe. Contrasting line weights call to mind the visual depth of stereoscopic art, adding a layer of linear intrigue.

LIGHT WAVE

Amplify your interiors with this harmonious combination of colors. Light Wave is infused with subtle hints of texture, taking an impressionistic approach to design.

A POWERLINES/QS COLLECTION
SHIPS WITHIN 3 WEEKS —

As part of our Powerlines Quick Ship program, Stereovision ships within 3 weeks. With this enhanced service model, you get the added benefit of both beauty and speedy delivery.

PERFECT FOR ANY MARKET —

The versatile colors and patterns in the Stereovision collection fit in a wide range of market segments. Whether it's a cozy multifamily interior or a focused workspace, you can easily create functional and welcoming spaces.

SEAMLESS COORDINATION —

When installing Stereovision next to 5.0mm resilient flooring, a transition strip is not necessary. You can easily design spaces with a variety of pattern, color, and texture thanks to our modular design, which enables products to flow together seamlessly.

M/PACT™ Carbon Neutral Product

Climate change is one of the greatest threats facing humanity. That's why our flooring products are carbon neutral everywhere in the world. Let's work together for a better tomorrow.

Science Based Targets initiative (SBTi)

At Milliken, we have committed to reducing all scope 1, 2, and 3 emissions – all the direct and indirect emissions from our company – and becoming net-zero by the year 2050.

We have established a series of targets that have been approved by the Science Based Targets initiative (SBTi), a collective of international organizations dedicated to helping companies set emission reduction targets in line with climate science and the Paris Climate Agreement.

We are the first floor covering company to be validated across all science-based targets to achieve net-zero and among the first 50 companies in the world to have verified science-based net-zero targets. Join us on the journey to develop a more sustainable future.

SUSTAINABLE FEATURES

Stereovision is manufactured with WellBAC® Comfort cushion backing, and is certified NSF-140 Gold with 42.3% pre-consumer recycled content by total weight. **Stereovision** is also available with our NSF-140 Platinum backing option. All Milliken modular carpets carry Environmental Product Declarations and Health Product Declarations, which contribute to LEED certification. Additionally, Milliken modular carpets carry Declare® transparency labels and comply with the Red List Imperative of the Living Building Challenge.™

TRACTIONBACK

Simplify your modular installation with Milliken's patented TractionBack®, an innovative backing system that is faster, more cost efficient, and environmentally superior to wet adhesives and peel-and-stick carpet tile.
